EDUCATION

Currently pursuing a Bachelor's degree in Software Engineering, 6 out of 8 semesters completed.

SKILLS

- Proficient in JavaScript, NodeJS, ReactJS, Docker and Kubernetes. I feel comfortable with TypeScript, Go/Golang, Vue.js, AWS, GCP and Azure.

EXPERIENCE

Clinicorp Solutions, Software Developer

DEC 2022 - CURRENTLY

- I created a microservice using cloud functions with Express routes.
- I completed a large project using React and Node.js from start to finish.
- I improved the performance of a system component that handles a massive amount of data using various techniques such as Node.js stream, gzip, React Context, etc.

Upflux, Software Developer

MAR 2022 - NOV 2022

- I created a backend using C#, unit testing, and REST, applying the SOLID principles and TDD.
- I added a CI pipeline to check the code quality using Sonarqube integration.
- I conducted automated E2E testing to check for bugs in the frontend screens using Cypress and Cucumber.

DevHero, Desenvolvedor de Software

FEV 2021 - SET 2021

- I worked as a Full Stack developer, using Node.js and Vue.js.
- I developed a backend using Golang/Node.js and GraphQL, applying the principles of Clean Architecture, TDD, and SOLID.
